AL-Control panel UP / DN

# Accessories

## AL-Control panel UP / DN

The **AL-Control panel UP / DN** is available as an optional accessory for our DIMM module ML-PWM. This enables manual dimming of one or more luminaires at a central point.

With its robust aluminium housing and weatherproof, UV-resistant and crystal-clear PUR encapsulation, the AL control panel is protected against environmental influences and numerous chemicals such as alkalis, acids and oils. The front foil used is resistant to solvents and chemicals.

### TECHNICAL DATA

- Switching voltage 24 V DC
- Maximum switching capacity 50 mA
- Connection with 3 m PVC/PVC cable
- Hermetically encapsulated
- Resistant to shock or vibration
- Compact, robust and particularly flat design
- Stable aluminium housing and aluminium front panel
- Mounting with 2x socket head screws, hexagon socket
- Max. ambient temperature 60° C
- IP 54 protection class, protection class 3
