2.1 Quality Policy

The management has the following quality policy for the company

Schrempp electronic GmbH and made known:

- The constant assurance of the satisfaction of our customers and their continuous improvement are among our top principles. Our customers set the standard for quality. That is why your judgment of our quality is decisive.
- Each individual employee contributes to securing our quality standards through their personal performance.
- It is ensured that activities relevant to quality and safety are consistently planned, controlled and monitored. In this way, we meet the quality requirements of our customers as well as the applicable statutory and official regulations.
- Through a continuous improvement process, the quality of our products should be permanently increased through the commitment of all employees at all levels.
- The company undertakes to meet the requirements of the quality management system and to continuously improve it.

The quality policy is made known to all employees, made available to relevant interested parties and checked annually for suitability and appropriateness as part of the management review (see QMH 9.3).
